Feed/Technical Assistance:

Five (5) feed / technical assistance zones. One (Vf.Carciuma) is a triple feed zone and the other ones are Feredeau and Cladova.

Technical assistance during the race may consists of repairs or replacement of any part of the bicycle other than the frame. Bike changes are not permitted, and the rider must cross the finishing line with the same handlebar number plate that he / she had at the start. Technical assistance shall only be given in the feed/technical assistance zones. Spare equipment and tools for repairs must be kept in these zones. Repairs and equipment changes can be carried out by the rider himself or with the help of a teammate, team mechanic or neutral technical assistance. Small items such as an inner tube or a small tool may be handed up from the feed/technical assistance zones. All people inside the Feed/Technical assistance zone must have on them in a visible place a Feed/Technical assistance zone pass. People without a pass will be removed from the Feed/Technical assistance zones. Passes will be handed after the Team Managers meeting (1 pass for every 3 riders for each Feed/Technical assistance zone). Technical assistance is permitted outside Feed/Technical assistance zones only between riders who are members of the same UCI ELITE MTB team, UCI MTB team or of the same national team (if riders are registered in the race as part of the National team). Riders may carry tools and spare parts provided that these do not involve any danger to the rider himself or the other competitors. Any changes to UCI regulations regarding feed/technical assistance will be applied to the above.

Timing, results and rankings:

The timing will be done by transponders. Results will be available live online.

Team area:

All teams are welcome to setup a booth. There is no fee for this, but each team should make a reservation by e-mail until registrations are closed. The team area is located next to the start/finish line.
